

MYSTIC DRUMZ

presents

DRUM CÍRÓLE

Everyone can play drums and percussion.

It's in our DNA ... it's literally in your heart beat. Each drum workshop is a hands-on drum music and rhythm circle. Every participant receives an instrument and instruction on how to play it. The entire group becomes a percussion ensemble band and learns a full song from start to finish. Drumming builds community and can help to connect your students and staff in new and exciting positive ways. Workshops help focus participants. They will feel energized and will leave with more confidence. Drumming is empowering and everyone has an important role to play in the music. Our expert facilitators have been trained to make sure everyone gets the right instrument for their experience level and our motto is "Fun is Number One".

***Workshop Timeframes: 30 minutes to 1 hour
depending on age and program timing.
Normal workshop size is 30 participants, but we
can handle groups up to 200.***
