

# MYSTIC DRUMZ

presents

## BOOMWHACKER

BoomWhackers are tuned percussion sticks that we use in call and response games. They can be used to create a human piano and play popular group songs. They are simple to hold and easy to play. You can hit them on your hand, leg, table, chair or almost anything. They are great for working on harmony, melody and of course rhythm. Mystic Drumz has tailored many games using BoomWhackers to stimulate and improve concentration levels, listening and auditory skills, group work and gross and fine motor skills. They are silly and fun and that's what Mystic Drumz does best.
